# Innovation With The World

Midea is committed to staying at the forefront of technology in the area of customer appliances. Never forgetting the principle of "customer-first", Midea strives to establish a technological advantage through teamwork and innovation.

Midea owns a large scale plant for manufacturing kitchen appliances and spare parts, equipped with industry-leading production facilities, assembly line, test labs, quality control and R&D centers.

The integrated system guarantees an efficient and strict quality assurance framework covering every aspect and sector of manufacturing.

# SUPERIOR DESIGN

For us, design is a journey. Starting from a designer's mind to binary codes of a super computer then further into the flame up to 2200oF where it reaches its final destination: Innovation.

For us design is about transformation, process and form, technology and texture. It is the journey for and with humans.

Strength in our design comes from our Diversity

DESIGN TEAM

# WHAT WE DO

Midea offers a broad range of commercial ovens to satisfy every food service need. Unprecedented performance, user-friendly interfaces and superior design are a few of the Midea advantages that makes us the supplier of choice for all commercial needs.

## MEETS ALL FOOD SERVICE DEMANDS

Our range of commercial ovens are all-purpose units that will cook virtually anything, from Apple to Zucchini. No matter the type of food there is always a suitable oven for your menu needs. Commercial microwaves are an essential addition to many restaurants, convenience stores, and employee break rooms.

They quickly heat and cook different portions of food for the ultimate in convenience. Although they are similar in functionality to residential units, they are more powerful and meet commercial regulations.

### Commercial Microwave Oven Ideal Applications

- Convenience Stores
- Hospitals
- Restaurants Quick-Serve
- Food Banks
- Coffee Shops
- Dormitory
- Health Centers
- Long Term Care Center
- Super Markets
- Railway Stations
- Bakery
- Juice Bars
- Bars
- Schools
- Stadiums
- Cruise Lines

# MIDEA'S HIGHER WATTAGE COMMERCIAL OVENS

No more waiting for your customers with Midea's higher Wattage commercial ovens.

# High Performance

## Fast

Fast reheating and steaming with greater throughput and more consistent results.

## Efficient

Efficient heating system for better even heating with double rotating antennas.

## Superior

Better results with superior retention of food nutrients, texture and color as high power microwave cooking is so fast and requires only minimal amount of added water.

# User Friendly

## 17L Series

**Stainless steel cabinet and oven cavity**  
Durable construction perfectly adapted to the commercial environment

**USB Menus updatable system**  
Menus can be updated based on chain restaurant requirements, then sent to all the ovens in the chain for consistent results

**Removable splatter shield**  
Easy to clean

**Grab'n Go handle**  
Strong and reliable, no moving parts

**Easy to control**  
User-friendly controls and user interface

**Stackable installation**  
Space utilization optimization

# New! Product

## FLASHCHEF™ SCAN&GO™ Microwave

### PROFESSIONAL KITCHEN SERIES

#### BORN TO BE PROFESSIONAL.

Midea **FLASHCHEF**; an exclusive lineup of professional cooking appliances that focuses on the needs of commercial environment : efficiency, simplicity and durability.
